MOBIGO

DIGITAL TRANSFORMATION &
TRAINING SPECIALISTS

ABOUT US

Our business model is built on a network of digital platforms allowing us more flexibility to customise and adapt our offering to suit the needs of our individual clients. Our products make use of a wide variety of visual and interactive elements to ensure the best possible learning experience.

A proud **level 2 BBBEE** company that believes in **inclusivity** and **transformation**.

MAKING A DIFFERENCE

We believe that investing in the community is the best investment you will ever make. It is a well-known fact that training is the break in the poverty cycle and thus we are committed to invest our time and skills to aid in the training and ultimate success of individuals in the community.

Sanitary Drives

Child Feeding Projects

Play Days

OUR VISION

To break the cycle of poverty and build a brighter future through education.

OUR MISSION

To harness the skills and features of different industries and communities to enable digital capacity building that empowers people through online programs and the development of new abilities. And to use education and technology as vehicles to create positive change in people's lives and provide solutions in places where there were none.

OUR VALUES

Our company values play a vital part to the overall success of building our business and guiding our decisions:

-  **Passion** – We are passionate about making a difference through education by leveraging technology to make the biggest impact.
-  **Quality** – We pride ourselves on the way in which we do business. Our promise is to deliver output and services of the highest quality.
-  **Teamwork** – Collaboration is key, not only internally within our team, but with our clients. We work hard to find the best possible solution in any situation.
-  **Innovation** – We are committed to thinking outside-the-box and using our creative abilities to find fresh and effective ways to serve our clientele.

THE MOBIGO PILLARS

Our business and service offering is built around several key pillars:

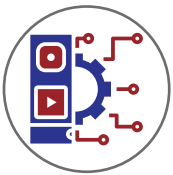

CSI

The production of engaging audio-visual CSI training packages that focus on grass-root education and community upliftment.

ONLINE TRAINING & EDUCATION

A wide variety of customised and interactive training content, designed to suit your needs. Our content is available stand-alone or hosted on our state-of-the-art learning management system (GoLMS).

DIGITAL TECHNOLOGY DEVELOPMENT

Creating web and mobile applications used for learning and data capturing purposes. These include:

- Augmented learning apps for user guides and compressed information guides on mobile devices
- AR Vehicle Checklists
- Interactive User Manuals (Merge Cube technology)
- Virtual Reality Technology (Visual and interactive 360 virtual environment tours for multiple hosting platforms)
- Company or business websites
- Web applications
- Email weblink pages

MEDIA PRODUCTIONS

A wide range of media production including graphical design, 2D and 3D Animation, Incident Re-enactments and promotional content.

OCCUPATIONAL HEALTH & SAFETY CONSULTING

Including research, development and design of bespoke health and safety solutions.
